

One profile. Every machine.

Your coffee, tuned to you. Set up from your phone, and welcomed wherever Caffeevolve is.

Caffeevolve already tunes every cup to the person drinking it. Version II makes that personal touch effortless and portable: a profile you shape on your phone and carry with you, recognized at every Caffeevolve machine that opens its door.

1

Effortless to start

Set up your profile from your phone in minutes, with no small-screen fiddling at the machine.

VERSION II

2

Caffeevolve Passport

Your profile, preferences and current caffeine level in your pocket. Walk up to a machine that has opted in, at a café, an office or a friend's home, and it welcomes you.

THE BIG IDEA

3

Your day, planned

Shape your day and your routines on the phone, and find them waiting at the machine.

VERSION II

4

No queue to pay

See the total, approve it from your phone, and walk away with your cup.

LATER

Why it matters

- A network that grows in value. Every machine that opens its door makes every Passport more useful, and every Passport makes opening a door more attractive.
- A daily relationship. The phone becomes the everyday touchpoint with Caffeevolve, not only the machine on the counter.
- Room for new partners. Cafés, offices and hosts can welcome Caffeevolve customers without setting anything up for each one.
- The same trusted cup. The precision and the care around each person's Caffeine Comfort Zone stay exactly as they are.

The road ahead

TODAY

Precisely personalized brewing

NEXT

Phone-first setup and one profile on more than one machine

THEN

Caffeevolve Passport at opted-in machines

LATER

Pay from your phone

Your coffee knows you. Now it can follow you.

VISION · DRAFT

Caffeevolve™ Version II is a vision. The features described are planned, are subject to change, and are not available today. "Caffeevolve Passport" is a working name. Confidential. Draft for review before any external use.
